*National Park Service, U.S. Department of the Interior*

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering wise use of our land and water resources, protecting our fish and wildlife, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interest of all our people. The Department also promotes the goals of the Take Pride in America campaign by encouraging stewardship and citizen responsibility for the public lands promoting citizen participation in their care. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under U.S. administration.

# Introduction

Grand Canyon National Park

Lincoln Memorial

Seventy-five years ago President Woodrow Wilson signed the act creating the National Park Service, a new federal bureau in the Department of the Interior responsible for protecting the 40 national parks and monuments then in existence and those yet to be established. This "Organic Act" of August 25, 1916, states that "the Service thus established shall promote and regulate the use of Federal areas known as national parks, monuments and reservations . . . by such means and measures as conform to the fundamental purpose of the said parks, monuments and reservations, which purpose is to conserve the scenery and the natural and historic objects and the wild life therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations."

The National Park Service still strives to meet those original goals, while filling many other roles as well: guardian of our diverse cultural and recreational resources; environmental advocate; world leader in the parks and preservation community; and pioneer in the drive to protect America's open space.

The National Park System of the United States comprises 357 areas covering more than 80 million acres in 49 States, the District of Columbia, American Samoa, Guam, Puerto Rico, Saipan, and the Virgin Islands. These areas are of such national significance as to justify special recognition and protection in accordance with various acts of Congress.

By Act of March 1, 1872, Congress established Yellowstone National Park in the Territories of Montana and Wyoming "as a public park or pleasuring ground for the benefit and enjoyment of the people" and placed it "under exclusive control of the Secretary of the Interior." The founding of Yellowstone National Park began a worldwide national park movement. Today more than 100 nations contain some 1,200 national parks or equivalent preserves.

In the years following the establishment of Yellowstone, the United States authorized additional national parks and monuments, most of them carved from the federal lands of the West. These, also, were administered by the Department of the Interior, while other monuments and natural and historical areas were administered as separate units by the War Department and the Forest Service of

the Department of Agriculture. No single agency provided unified management of the varied federal parklands.

An Executive Order in 1933 transferred 63 national monuments and military sites from the Forest Service and the War Department to the National Park Service. This action was a major step in the development of today's truly national system of parks—a system that includes areas of historical as well as scenic and scientific importance.

Congress declared in the General Authorities Act of 1970 "that the National Park System, which began with the establishment of Yellowstone National Park in 1872, has since grown to include superlative natural, historic, and recreation areas in every region . . . and that it is the purpose of this Act to include all such areas in the System. . . ."

Additions to the National Park System are now generally made through acts of Congress, and national parks can be created only through such acts. But the President has authority, under the Antiquities Act of 1906, to proclaim national monuments on lands already under federal jurisdiction. The Secretary of the Interior is usually asked by Congress for his recommendations on proposed additions to the System. The Secretary is counseled by the National Park System Advisory Board, composed of private citizens, which advises him on possible additions to the System and policies for its management.

**Nomenclature of Park System Areas**

The diversity of the parks is reflected in the variety of titles given to them. These include such designations as national park, national preserve, national monument, national memorial, national historic site, national seashore, and national battlefield park.

Although some titles are self-explanatory, others have been used in many different ways. For example, the title "national monument" has been given to great natural reservations, historic military fortifications, prehistoric ruins, fossil sites, and to the Statue of Liberty.

In recent years, Congress and the National Park Service have attempted, with some success, to simplify the nomenclature and to establish basic criteria for use of the different official titles. Brief definitions of the most common titles follow.

Areas added to the National Park System for their natural values are expanses or features of land or water of great scenic and scientific quality and are usually designated as national parks, monuments, preserves, seashores, lakeshores, or riverways. Such areas contain one or more distinctive attributes such as forest, grassland, tundra, desert, estuary, or river systems; they may contain "windows" on the past for a view of geological history, imposing landforms such as mountains, mesas, thermal areas, and caverns, and they may be habitats of abundant or rare wildlife and plantlife.

Generally, a **national park** contains a variety of resources and encompasses large land or water areas to help provide adequate protection of the resources.

A **national monument** is intended to preserve at least one nationally significant resource. It is usually smaller than a national park and lacks its diversity of attractions.

In 1974, Big Cypress and Big Thicket were authorized as the first **national preserves**. This category is established primarily for the protection of certain resources. Activities such as hunting and fishing or the extraction of minerals and fuels may be permitted if they do not jeopardize the natural values. **National reserves** are similar to the preserves. Management, however, is by local or state authorities. The first reserve, City of Rocks, was established in 1988.

Preserving shoreline areas and off-shore islands, the **national lakeshores** and **national seashores** focus on the preservation of natural values while at the same time providing water-oriented recreation. Although national lakeshores can be established on any natural freshwater lake, the existing four are all located on the Great Lakes. The national seashores are on the Atlantic, Gulf, and Pacific coasts.

**National rivers** and **wild and scenic riverways** preserve ribbons of land bordering on free-flowing streams which have not been dammed, channelized, or otherwise altered by man. Besides preserving rivers in their natural state, these areas provide opportunities for outdoor activities such as hiking, canoeing, and hunting.

**National scenic trails** are generally long-distance footpaths winding through areas of natural beauty.

Although best known for its great scenic

parks, more than half the areas of the National Park System preserve places and commemorate persons, events, and activities important in the Nation's history. These range from archeological sites associated with prehistoric Indian civilizations to sites related to the lives of modern Americans. Historical areas are customarily preserved or restored to reflect their appearance during the period of their greatest historical significance.

In recent years, **national historic site** has been the title most commonly applied by Congress in authorizing the addition of such areas to the National Park System. A wide variety of titles—**national military park, national battlefield park, national battlefield site**, and **national battlefield**—has been used for areas associated with American military history. But other areas such as **national monuments** and **national historical parks** may include features associated with military history. **National historical parks** are commonly areas of greater physical extent and complexity than national historic sites. The lone **international historic site** refers to a site relevant to both U.S. and Canadian history.

The title **national memorial** is most often used for areas that are primarily commemorative. But they need not be sites or structures historically associated with their subjects. For example, the home of Abraham Lincoln in Springfield, Ill., is a national historic site, but the Lincoln Memorial in the District of Columbia is a national memorial.

Several areas administered by National Capital Region whose titles do not include the words national memorial are nevertheless classified as memorials. These are John F. Kennedy Center for the Performing Arts, Lincoln Memorial, Lyndon Baines Johnson Memorial Grove on the Potomac, Theodore Roosevelt Island, Thomas Jefferson Memorial, and the Washington Monument—all in the District of Columbia.

Originally, **national recreation areas** in the Park System were units surrounding reservoirs impounded by dams built by other federal agencies. The National Park Service manages many of these areas under cooperative agreements. The concept of recreational areas has grown to encompass other lands and waters set aside for recreational use by acts of Congress and now includes major areas in urban centers. There are also national recreation areas outside the National Park System that are administered by the Forest Service, U.S. Department of Agriculture.

**National parkways** encompass ribbons of land flanking roadways and offer an opportunity for leisurely driving through areas of scenic interest. They are not designed for high speed travel. Besides the areas set aside as parkways, other units of the National Park System include parkways within their boundaries.

Two areas of the National Park System have been set aside primarily as sites for the **performing arts**. These are Wolf Trap Farm Park for the Performing Arts, Virginia, America's first such national park, and the John F. Kennedy Center for the Performing Arts, D.C. Two historical areas, Ford's Theatre National Historic Site, D.C., and Chamizal National Memorial, Texas, also provide facilities for the performing arts.

### Designation of Wilderness Areas

In the Wilderness Act of 1964, Congress directed three federal agencies, including the National Park Service, to study certain lands within their jurisdiction to determine the suitability of these lands for inclusion in the National Wilderness Preservation System.

By subsequent legislation, Congress has designated **wilderness areas** in many units of the National Park System. This designation (noted in this booklet in the listing by states) does not remove wilderness lands from the parks, but it does ensure that they will be managed to retain their "primeval character and influence, without permanent improvements or human habitation. . . ."

The Act provides, generally, that "there shall be no commercial enterprise and no permanent road within any wilderness area . . . and (except for emergency uses) no temporary road, no use of motor vehicles, motorized equipment or motorboats, no landing of aircraft, no other form of mechanical transport, and no structure or installation." Wilderness areas are open to hiking and, in some cases, horseback riding, primitive camping, and similar pursuits.

### Parks in the Nation's Capital

As the Nation's Capital, Washington, D.C., has a unique park system. Most of the public parks are administered by the Federal Government through the National Capital Region

of the National Park Service.

National Capital Region has inherited duties originally assigned to three Federal Commissioners appointed by President George Washington in 1790. The city's parks were administered by a variety of federal agencies until this responsibility was assigned to the National Park Service under the Reorganization Act of 1933. Most parklands in the city are included in the federal holdings, although the District of Columbia also operates parks, playgrounds, and recreational facilities.

National Capital Region also administers several National Park System units in Maryland, Virginia, and West Virginia, which are shown in this booklet in the listing by states.

**Related Areas**

Besides the National Park System three groups of areas exist—Affiliated Areas, the Wild and Scenic Rivers System, and the National Trails System—that are closely linked in importance and purpose to those areas managed by the National Park Service. Except for those wild and scenic rivers administered by the National Park Service, these areas are not units of the National Park System, yet they preserve important segments of the Nation's heritage. They are, therefore, given recognition in Part 3 of this book.

# Descriptive Listing of National Park System Areas

## Alabama

**Horseshoe Bend National Military Park**
Route 1, Box 103
Daviston, AL 36256

On March 27, 1814, at the "horseshoe bend" in the Tallapoosa River, Gen. Andrew Jackson's forces broke the power of the Upper Creek Indian Confederacy and opened large parts of Alabama and Georgia to settlement.
Authorized July 25, 1956.
*Acreage—2,040, all federal.*

**Natchez Trace National Scenic Trail**
(See Mississippi)

**Natchez Trace Parkway**
(See Mississippi)

**Russell Cave National Monument**
Route 1, Box 175
Bridgeport, AL 35740

An almost continuous archeological record of human habitation from at least 7000 BC to about AD 1650—Early Archaic to Mississippian cultural periods—is revealed in this cave.
Proclaimed May 11, 1961.
*Acreage—310.45, all federal.*

**Tuskegee Institute National Historic Site**
P.O. Drawer 10
Tuskegee Institute, AL 36088

Booker T. Washington founded this college for black Americans in 1881. Preserved here are the brick buildings the students constructed themselves, Washington's home, and the George Washington Carver Museum, which serves as the visitor center. The college is still an active institution that owns most of the property within the national historic site.
Authorized Oct. 26, 1974.
*Acreage—57.62 Federal: 8.32 Nonfederal: 49.30.*

## Alaska

**Alagnak Wild River**
c/o Katmai National Park and Preserve, P.O. Box 7
King Salmon, AK 99613

The Alagnak River flows from Kukaklek Lake in Katmai National Preserve and offers 69 miles of outstanding whitewater floating. The river is also noted for abundant wildlife and sport fishing for five species of salmon. Portions of the main stem lie outside and westward of Katmai.
Established: Dec. 2, 1980. Length: 69 miles.
*Acreage—24,038, all federal.*

**Aniakchak National Monument and Preserve**
P.O. Box 7
King Salmon, AK 99613

The Aniakchak Caldera, covering some 30 square miles, is one of the great dry calderas in the world. Located in the volcanically active Aleutian Mountains, the Aniakchak last erupted in 1931. The crater includes lava flows, cinder cones, and explosion pits, as well as Surprise Lake, source of the Aniakchak River, which cascades through a 1,500-foot gash in the crater wall. The site contains the Aniakchak Wild River.
NO FEDERAL FACILITIES.
Proclaimed as Aniakchak National Monument Dec. 1, 1978; established as a national monument and preserve Dec. 2, 1980.
*Acreage—National monument: 137,176, all federal. National Preserve: 465,603 Federal: 454,151 Nonfederal: 11,452.*

**Bering Land Bridge National Preserve**
P.O. Box 220, Nome, AK 99762

Located on the Seward Peninsula in northwest Alaska, the preserve is a remnant of the land bridge that once connected Asia with North America more than 13,000 years ago. Paleontological and archeological resources abound; large populations of migratory birds nest here. Ash explosion craters and lava flows, rare in the Arctic, are also present. LIMITED FEDERAL FACILITIES.
Proclaimed as Bering Land Bridge National Monument Dec. 1, 1978; established as a national preserve Dec. 2, 1980.
*Acreage—2,784,960 Federal: 2,690,179 Nonfederal: 94,781.*

**Cape Krusenstern National Monument**
P.O. Box 1029
Kotzebue, AK 99752

Archeological sites located along a succession of 114 lateral beach ridges illustrate Eskimo communities of every known cultural period in Alaska, dating back some 4,000 years. Older sites are located inland, along the foothills. The monument includes a representative example of the arctic coastline along the Chukchi Sea. LIMITED FEDERAL FACILITIES.
Proclaimed Dec. 1, 1978. Boundary change: Dec. 2, 1980.
*Acreage—659,807 Federal: 621,592 Nonfederal: 38,215.*

**Denali National Park and Preserve**
P.O. Box 9
McKinley Park, AK 99755

The park contains North America's highest mountain, 20,320-foot Mount McKinley. Large glaciers of the Alaska Range, caribou, Dall sheep, moose, grizzly bears, and timber wolves are other highlights of this national park and preserve.
Established as Mt. McKinley National Park Feb. 26, 1917. Separate Denali National Monument proclaimed Dec. 1, 1978. Both incorporated into and established as Denali National Park and Preserve Dec. 2, 1980. Wilderness designated Dec. 2, 1980. Other boundary changes: Jan. 30, 1922; March 19, 1932. Designated a Biosphere Reserve 1976.
*Acreage—National park: 4,716,726 Federal: 4,715,200.14 Nonfederal: 1,525.86 National preserve: 1,311,365 Federal: 1,310,565 Nonfederal: 800. Wilderness area: 1,900,000.*

**Gates of the Arctic National Park and Preserve**
P.O. Box 74680
Fairbanks, AK 99707

Lying entirely north of the Arctic Circle, the park and preserve includes a portion of the Central Brooks Range, the northernmost extension of the Rocky Mountains. Often referred to as the greatest remaining wilderness in North America, this second largest unit of the National Park System is characterized by jagged peaks, gentle arctic valleys, wild rivers, and numerous lakes. The forested southern slopes contrast to the barren northern reaches of the site at the edge of Alaska's "north slope." The park-preserve contains the Alatna, John, Kobuk, part of the Noatak, the North Fork of the Koyukuk, and the Tinayguk Wild Rivers. And with adjacent Kobuk Valley National Park and Noatak National Preserve, it is one of the largest park areas in the world. LIMITED FEDERAL FACILITIES.
Proclaimed Gates of the Arctic National Monument Dec. 1, 1978; established as a national park and preserve Dec. 2, 1980. Wilderness designated Dec. 2, 1980. Designated a Biosphere Reserve (portion) 1984.
*Acreage—National park: 7,523,888 Federal: 7,281,654.48 Nonfederal: 242,233.52. National preserve: 948,629 Federal: 948,504 Nonfederal: 125. Wilderness area: 7,052,000.*

**Glacier Bay**
**National Park and Preserve**
P.O. Box 140
Gustavus, AK 99826

Great tidewater glaciers, a dramatic range of plant communities from rocky terrain recently covered by ice to lush temperate rain forest, and a large variety of animals, including brown and black bear, mountain goats, whales, seals, and eagles can be found within the park. Also included are Mount Fairweather, the highest peak in southeast Alaska, and the U.S. portion of the Alsek River.
Proclaimed Glacier Bay National Monument Feb. 25, 1925; established as a national park and preserve Dec. 2, 1980. Boundary changes: April 18, 1939; March 31, 1955; December 1, 1978. Wilderness designated Dec. 2, 1980. Designated a Biosphere Reserve 1986.
*Acreage—National park: 3,225,284 Federal: 3,224,938 Nonfederal: 346. National preserve: 57,884 Federal: 55,439 Nonfederal: 2,445. Wilderness area: 2,770,000.*

**Katmai**
**National Park and Preserve**
P.O. Box 7
King Salmon, AK 99613

Variety marks this vast land: lakes, forests, mountains, and marshlands all abound in wildlife. The Alaska brown bear, the world's largest carnivore, thrives here, feeding upon red salmon that spawn in the many lakes and streams. Wild rivers and renowned sport fishing add to the attractions of this subarctic environment. Here, in 1912, Novarupta Volcano erupted violently, forming the ash-filled "Valley of Ten Thousand Smokes" where steam rose from countless fumaroles. Today only a few active vents remain. The park-preserve contains part of the Alagnak Wild River.
Proclaimed as Katmai National Monument Sept. 24, 1918; established as a national park and preserve Dec. 2, 1980. Bounday changes: April 24, 1931; Aug. 4, 1942; Jan. 20, 1969; Dec. 1, 1978; Dec. 2, 1980. Wilderness designated Dec. 2, 1980.
*Acreage—National park: 3,716,000 Federal: 3,575,000 Nonfederal: 141,000. National preserve: 374,000, all federal. Wilderness area: 3,473,000.*

**Kenai Fjords National Park**
P.O. Box 1727
Seward, AK 99664

The park includes one of the four major ice caps in the U.S., the 300-square-mile Harding Icefield and coastal fjords. Here a rich, varied rain forest is home to tens of thousands of breeding birds and adjoining marine waters support a multitude of sea lions, sea otters, and seals. The visitor center is in Seward, 10 miles from the park.
Proclaimed Kenai Fjords National Monument Dec. 1, 1978; established as a national park Dec. 2, 1980.
*Acreage—669,541 Federal: 649,946 Nonfederal: 19,595.*

**Klondike Gold Rush**
**National Historical Park**
P.O. Box 517
Skagway, AK 99840
(See also Washington)

Historic buildings in Skagway and portions of Chilkoot and White Pass Trails, all prominent in the 1898 gold rush, are included in the park.
Established June 30, 1976.
*Acreage—13,191.35 Federal: 2,721.33 Nonfederal: 10,470.02.*

**Kobuk Valley National Park**
P.O. Box 1029
Kotzebue, AK 99752

Embracing the central valley of the Kobuk River, the park, located entirely north of the Arctic Circle, includes a blend of biological, geological, and cultural resources. Here, in the northmost extent of the boreal forest, a rich array of arctic wildlife can be found, including caribou, grizzly and black

bear, wolf, and fox. The 25-square-mile Great Kobuk Sand Dunes lie just south of the Kobuk River against the base of the Waring Mountains. Archeological sites revealing more than 10,000 years of human occupation are among the most significant sites known in the Arctic. The park contains the Salmon Wild River. LIMITED FEDERAL FACILITIES.
Proclaimed Kobuk Valley National Monument Dec. 1, 1978; established as a national park Dec. 2, 1980. Wilderness designated Dec. 2, 1980.
*Acreage—1,750,421 Federal: 1,726,463 Nonfederal: 23,958. Wilderness area: 190,000.*

# Affiliated Areas

Roosevelt Campobello International Park

In an Act of August 18, 1970, the National Park System was defined in law as "any area of land and water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational or other purposes." The same law specifically excludes "miscellaneous areas administered in connection therewith," that is, those properties that are neither federally owned nor directly administered by the National Park Service but which utilize NPS assistance.

The Affiliated Areas comprise a variety of locations in the United States and Canada that preserve significant properties outside the National Park System. Some of these have been recognized by Acts of Congress, others have been designated national historic sites by the Secretary of the Interior under authority of the Historic Sites Act of 1935. All draw on technical or financial aid from the National Park Service.

## Wild and Scenic Rivers System

Public Law 90-542, of October 2, 1968, provides for the establishment of a system of rivers to be preserved as free-flowing streams accessible for public use and enjoyment. Components of the system, or portions of component rivers, may be designated as wild, scenic, or recreational rivers. Rivers are classified according to the natural qualities they possess and the evidence, as viewed from the river, of man's presence in the area. Thus, in a wild river there is little evidence of man's presence, the river is free of impoundments (dams), and it is generally inaccessible except by trail. A scenic river is one with relatively primitive shorelines, largely undeveloped, but accessible in places by road. A recreational river has more development, is accessible by road or railroad, and may have been dammed.

Once a river area is designated a component of the Wild and Scenic Rivers System, the objective of the managing agency—local, state, or federal—is to preserve or enhance the qualities which qualified the river for inclusion within the system. Recreational use must be compatible with preservation. Rivers administered by the National Park Service are units of the National Park System. Those administered by the U.S. Fish and Wildlife Service are components of the National Wildlife Refuge System.

State rivers and streams may become units of the Wild and Scenic Rivers System when established under state laws and developed with river management plans acceptable to the Secretary of the Interior. The Secretary may then designate the appropriate river area as a unit of the system. Federally managed components of the system are designated by Acts of Congress. Usually, Congress first requires, by law, a detailed study to determine the qualification of a river area for the system and then makes the decision.

Acreages of the wild rivers entirely within larger units of the National Park System are not stated separately. Acreages of wild rivers within the National Wildlife Refuge System in Alaska and several others are undetermined.

**A note on organization:** The first group of rivers, with addresses and brief descriptions, are those administered by the National Park Service. The second group, administered by a variety of federal, state, and local governments gives only the individual address to which you may write for further information.

Appalachian National Scenic Trail

The National Trails System Act of 1968, as amended, calls for establishing trails in both urban and rural settings for persons of all ages, interests, skills, and physical abilities. The act promotes the enjoyment and appreciation of trails while encouraging greater public access. It establishes four classes of trails: national scenic trails, national historic trails, national recreation trails, and side and connecting trails.

National scenic trails are to be continuous, extended routes of outdoor recreation within protected corridors. The first two established under the National Trails System Act were the Appalachian and Pacific Crest trails. They wind through some of the Nation's most striking natural beauty. National historic trails recognize past routes of exploration, migration, and military action.

The term national recreation trail is given to an existing trail by the Federal Government, upon application, in recognition of its role as a component of the National Trails System. Today more than 780 of these trails have been designated throughout the country. They are located in every state, the District of Columbia, and Puerto Rico, totaling more than 9,000 miles in length. Most of them, 513, are on federal lands. Of the remainder, 147 are state trails, 82 are local, and 31 are on private lands, and 12 are managed by two or more entities.

Side and connecting trails provide additional access to and between components of the National Trails System. To date, two have been designated.

Since 1963, 33 long-distance trails have been studied for inclusion in the system, and 17 have been designated. The National Park Service administers 12 of them, the Forest Service administers four, and the Bureau of Land Management, one.

The National Trails System is administered by the National Park Service, U.S. Department of the Interior. The National Park Service encourages other public and private agencies to develop, maintain, and protect trails. With the cooperation and support of a nationwide trails community, the vision of an interconnected, crosscountry trail system will become a reality.

**Appalachian National Scenic Trail**

National Park System unit; see Maine.

**Continental Divide National Scenic Trail**
Forest Service, Region 1
Federal Building
P.O. Box 7669
Missoula, MT 59807

In close proximity to the continental divide, the trail extends from the Canadian border in Glacier National Park, Montana, through Idaho, Wyoming, Colorado, and New Mexico to Mexico.
Established Nov. 10, 1978. Length: 3,200 miles.

**Florida National Scenic Trail**
Forest Service
227 N. Bronough St.
Suite 4061
Tallahassee, FL 32301

The trail runs north from Everglades National Park and through Big Cypress, the Kissimee Prairie, and various national and state forests. More than 300 miles have been developed for public use.
Established March 28, 1983. Length: 1,300 miles.

**Ice Age National Scenic Trail**
National Park Service
700 Rayovac Dr.
Suite 100
Madison, WI 53711

Winding through Wisconsin, the trail links together six of the nine units of the Ice Age National Scientific Reserve. The 1,000-mile hiking trail traverses significant features of Wisconsin's glacial heritage. Approximately 425 miles are open to public use; additional miles are being developed.
Authorized Oct. 3, 1980.

**Iditarod National Historic Trail**
Anchorage District
Bureau of Land Management
6881 Abbott Loop Rd.
Anchorage, AK 99507

One of the Alaska Gold Rush Trails, this 2,300-mile trail extends from Seward to Nome and is composed of a network of trails and side trails developed during the gold rush era at the turn of the century.
Established Nov. 10, 1978.

**Juan Bautista de Anza National Historic Trail**
Western Region
National Park Service
600 Harrison Street,
Suite 600
San Francisco, CA 94107

This trail traces the path of a party of Spanish colonists, led by Col. Juan Bautista de Anza, who in 1776 sought to establish an overland route from Mexico to California.
Established Aug. 15, 1990. Length: 1,200 miles.

**Lewis and Clark National Historic Trail**
National Park Service
700 Rayovac Dr.
Suite 100
Madison, WI 53711

The trail commemorates the route of the 1804-06 Lewis and Clark Expedition from the Mississippi River to the Pacific Ocean at the mouth of the Columbia River, and return. Approximately 4,500 miles of water routes, planned trails, and marked highways follow the outbound and return routes. Almost 500 public and private recreation and historic sites along the trail provide for public use and interpretation of the expedition, including eight National Park Service areas.
Established Nov. 10, 1978.

**Mormon Pioneer National Historic Trail**
Rocky Mountain Region
National Park Service
12795 West Alameda Parkway
Lakewood, CO 80225

This 1,300-mile trail follows the route over which Brigham Young led the Mormons from Nauvoo, Illinois, to the site of modern Salt Lake City, Utah, in 1847. An auto tour has been marked approximating the trail.
Established Nov. 10, 1978.

**Natchez Trace National Scenic Trail**

National Park System unit; see Mississippi.

**Nez Perce National Historic Trail**
Forest Service, Region 1
Federal Building
P.O. Box 7669
Missoula, MT 59807

The Nez Perce Trail begins in northeastern Oregon, extends through Idaho, traverses eastern Montana, crosses and recrosses the Continental Divide, bisects Yellowstone National Park in Wyoming and proceeds across the plains of central Montana to the foothills of the Bear Paw Mountains.
Established Oct. 6, 1986. Length: 1,170 miles.

**North Country National Scenic Trail**
National Park Service
700 Rayovac Dr.
Suite 100
Madison, WI 53711

The route of the North Country Trail extends 3,200 miles from Crown Point, New York, to the Missouri River and Lake Sakakawea in North Dakota, where it intersects the Lewis and Clark National Historic Trail at Garrison Dam. Approximately 1,000 miles are open to public use. Additional miles are being developed.
Established Mar. 5, 1980.

**Oregon National Historic Trail**
Pacific Northwest Region
National Park Service
83 South King Street, Suite 212
Seattle, WA 98104

The 2,170-mile trail took pioneers westward from Independence, Missouri, to the vicinity of modern Portland, Oregon, 1841-48.
Established Nov. 10, 1978.

**Overmountain Victory National Historic Trail**
Southeast Region
National Park Service
75 Spring Street, SW
Atlanta, GA 30303

This is the 300-mile path followed by a band of revolutionary patriots through parts of Virginia, Tennessee, and North Carolina to Kings Mountain, South Carolina, where they defeated the British in 1780.
Established Sept. 8, 1980.

**Pacific Crest Trail**
